

Join the Movement for Efficiency and Transparency

**mjunction** is proud to present  
the **Movement for Efficiency and  
Transparency (MET)**.

**MET** is a platform for thought leaders to share what they have done to make the community we are a part of and the country that we are citizens of a "better place". Join us as we recognise these individuals and acknowledge their efforts.

We live in an environment plagued by stories of corruption and inefficiency that retard progress and growth.

mjunction established its credentials by transforming the way secondary steel and coal is sold in India and has now launched MET as a way to extend this philosophy to all aspects of society. By encouraging transparency and creating efficient systems and processes, the aim is to ensure positive and sustainable change.

What has been achieved in eCommerce can be extended and achieved in civil society and daily life through eGovernance. MET is our effort to collaborate with visionaries and leaders to recognise their efforts and celebrate outcomes in society and business. Through this forum, we hope to encourage these Change Agents to strive further and inspire others too.

*Viresh Oberoi,*
